

Wiodący projektant / wiodąca projektant sieci wod-kan - projekty przemysłowe

Lokalizacja: Kraków i województwo małopolskie

umowa o pracę / pełny etat / praca hybrydowa

We are an international engineering company providing technical consulting, design, and project management services. As part of our Global Design Centre, with offices in Kraków and Warsaw, we employ talented professionals across Advanced Facilities, Water & Environment, Transportation, Energy & Power, and Cities & Places.

By collaborating in international teams and bringing together diverse perspectives, we gain valuable experience that drives our collective success. At Jacobs, every day is an opportunity to make the world better — design your career path with us!

As our Global Design Centre and **Civil** discipline continue to grow steadily, we are looking for a motivated professional to join our team as a **Lead Water Engineer** for industrial / advanced facilities projects

Your main responsibilities will include to lead the delivery of complex, multidisciplinary engineering projects from feasibility and concept design through detailed design and construction, driving innovative, high-quality solutions, coordinating global teams, managing scope, schedule and budget, mentoring engineers, and ensuring technical excellence and client satisfaction throughout the project lifecycle.

We offer:

- Work in an experienced project team, on international and prestigious projects, in a company present in all areas of infrastructure investment
- Collaboration with specialists and engineers from Jacobs' foreign offices and other industries on projects of global scale
- Opportunity to participate in innovation initiatives and its practical application in process optimization using the latest technology and software
- Benefit package (LuxMed medical package, additional life insurance, subsidized Multisport card, My Benefit system)

- PTO Allowance / Wczasy pod gruszą
- Employment based on a full-time employment contract
- Jacobs social networks: Women's network, One World, PRISM, Careers Network, Collectively and others, and participation in initiatives related to their activities
- Flexible working hours and "short Fridays" (Monday - Thursday 8.5h, Friday 6h)
- Ability to work in the office or in a hybrid model

Here's what you'll need

- Master's Degree in the field of Environmental Engineering
- Minimum 13 years of relevant experience
- Chartered with the relevant Institution
- Understanding of sanitary and drainage solution identification and development
 - Semiconductor Expertise could be an asset
- Understanding of project live cycle (conceptual design, outline design, detail design, construction design)
- Experienced with both alternative delivery (e.g., Fixed Price Design Build) and conventional project delivery methods (e.g., Design-Bid-Build)
- Construction work experience
- Outstanding knowledge of EU, UK and US/Canada design codes and best practice
- Experience in the application of hydraulic modelling software
- Good knowledge of 3D environment, good MS Office
- Experience in helping to mentor and guide junior engineers in how to design
- Very good English communication skills, both verbal and writing

Life at Jacobs

People are Jacobs' greatest asset, and we offer a competitive package to retain and attract the best talent.

In addition to the benefits you'd expect, UK employees also receive free single medical cover and digital GP service, family-friendly benefits such as enhanced parental leave pay and free membership of employee assistance and parental programmes, plus

reimbursement towards relevant professional development and memberships. We also give back to our communities through our Collectively program which incorporates matched-funding, paid volunteering time and charitable donations.

Work-life balance and flexibility are a key focus area for Jacobs. We're happy to discuss hybrid, part-time and flexible working hours, and patterns to suit you and our business.

Our Culture

Our values stand on a foundation of safety, integrity, inclusion and diversity. We put people at the heart of our business and we truly believe that by supporting one another through our culture of caring, we all succeed. We value positive mental health and a sense of belonging for all employees. Find out more about **life** at Jacobs.

We aim to embed inclusion and diversity in everything we do. We know that if we are inclusive, we're more connected, and if we are diverse, we're more creative. We accept people for who they are, regardless of age, disability, gender identity, gender expression, marital status, mental health, race, faith or belief, sexual orientation, socioeconomic background, and whether you're pregnant or on family leave. This is reflected in our wide range of Global Employee Networks centred on inclusion and diversity – ACE, Careers, Enlace, Harambee, OneWorld, Prism, Vetnet, and Women's – find out more about our employee networks **here**.

If you require further support or reasonable adjustments with regards to the recruitment process (for example, you require the application form in a different format), please contact the team: **recruitmentpoland@jacobs.com**

Your application experience is important to us and we're keen to adapt to make every interaction even better. We welcome feedback on our recruitment process and if you need more from us before deciding to join Jacobs then please let us know.
